Who I am…

As a versatile web developer, I possess a diverse skill set that encompasses front-end and junior full-stack development, with a strong focus on ReactJS. Hailing from Cameroon, I graduated from the Giddis Computer Training Center, where I excelled in web design and development. During my two-month internship, I demonstrated the ability to thrive in challenging environments and a strong aptitude for learning.

In addition to my technical expertise, I have earned certificates in public speaking, leadership and empowerment, and web design. I am passionate about remote work and open to full-time opportunities that allow me to travel. My online portfolio, accessible at https://my-secretes-stms.vercel.app/ provides a comprehensive overview of my qualifications and achievements.

How I acquired my first working experience.

23-07-2023 > 24-08-2023
Web design & development internship
At HighUpWeb

During my internship, I enjoyed collaborating with the team, even though they primarily used WordPress. I was given opportunities to edit existing websites for clients. I learned to work with people of diverse backgrounds and personalities, mastering the basics of graphic design, from creating logos and flyers to photo editing. This was a fulfilling first professional experience

How I learnt Full Stack Development
Front-End & Back-End

23-07-2023 > Till Date

I'm Passionate self-taught senior frontend developer (Next.js) and junior full-stack developer, skilled in backend, authentication, CMS, and SEO. I thrive on solving complex web challenges, fueled by relentless learning from YouTube, FreeCodeCamp, and W3Schools. Though I lack formal company experience, my dedication, adaptability, and hunger to excel make me a valuable asset. Let me prove my worth and grow with your team!

Currently!

I'm Currently expanding my skills into application development using Flutter and React Native, learning through;
YouTube tutorials and online resources. Passionate about mastering cross-platform development to create seamless, user-friendly apps. Constantly growing and eager to apply my knowledge to real-world projects!

My Educational Background

After obtaining my primary school certificate in 2010, I went on to earn a CAP (Certificat d'Aptitude Professionnelle) in 2014/2016, followed by an Intermediate Technical Certificate (ITC) in 2018/2019 and an Advanced Technical Certificate (ATC) in 2019/2020. In 2021, I completed a 6-month training program in web design and development at the Giddis Computer Training Center in Yaoundé. Currently, I am a student at the ICT University of Yaoundé, Cameroon. Below are some of my achievements. Attached to this document are scanned copies of my certificates

My Achievements

➢ Certificat d'Aptitude Professionnelle (CAP)
➢ Intermediate Technical Certificate (ITC)
➢ Advanced Technical Certificate (ATC)
➢ Web design & Development Certificate
➢ Leadership & Empowerment Certificate
➢ Public Speaking Certificate
➢ Basic Python Programming Certificate
➢ Internship Certificate at HighUpWeb
➢ Internship Attestation at HighUpWeb

With my Passion, self-driven web developer with expertise in frontend and junior full-stack development. Skilled in ReactJS, e-commerce, and creative problem-solving. A lifelong learner, traveler, and remote work enthusiast. A job opportunity will fuel my growth, creativity, and impact. Let's build the future together!
